OUR UNIVERSITY.

Very Important Action of the Board of Trustees Yesterday.

Tribune Sunday Morning. The Board of Trustees of East Tennessee University held an adjourned meeting yesterday atternoon. A number of important measures were time, and while not thus engaged, considered. A joint committee of the Trustees and Faculty submitted a report, which was unanimously adopted. The report declares it to be the duty and policy of the University to increase the means of instruction in departments relating to Agriculture and the Mechanic Arts, as defined by the movement South. Our Brigade went act of Congress, as well as in English, out on the Shelbyville road. We en- and in other scientific and optional courses. It recommends the election Confederates before us by way of of an additional Professor in the Col-Salem and Middleton, where we met lege of Agriculture, and of

ball from our battery had passed and Elecution is changed to that of English Language and Belles-Lettres organization is adopted, so as to give larger scope for special and optional study, and to develop the instruction For a few days we were in the saddie, first one place and then another, in all the departments beyond the limscouting, skirmishing and guarding its of the present curriculum. The supply trains. On the 27th of June Faculty are authorized to make arresistance and small loss. We charged rangements at once for this system, the enemy, when he stampeded and and to adopt to it the several courses fled. We went from there to Man- of study, and the degrees of the Unichester by way of Fairfield, a riving versity. The establishment of a Department of Commercial Theory and rain had failen almost constantly. It | Practice was also recommended as one was harvest time, and our progress of the objects to be hereafter under-

In order to render possible the proproposed expansion of scientific study without the reduction of other departments, it was recommended to increase, some extent, the revenue from students, and a moderate scale of fees (not including tuition.) was adopted, which will go into effect next session. Arrangements were made to secure the publication hereafter of regular reports from the cientific departments; also to give the Faculty more direct control over the grounds and buildings, and over the college farm. A valuab e report was submitted by the Farm Commit-

The report of the Executive Com- 12 mittee was equally important. A Normal course was authorized, for the special education of teachers. Postgraduate and professional degrees were instituted, with courses of study to be organized by the Faculty. Steps were taken looking to the connection of colleges of Medicine and of Law; also to the reduction and gradual abolition of 6 00 pm Bridgeport, too late to save the long mendations to the Legislature were the Preparatory department. Recom-11 26 p m River, which was burned by the of State Cadets by a system On the 13 h, we went to Stevenson, iting the right of such appointof public examination, and lim-Ala., the first and only Federal troops ment to students qualified for collegiate study. These measures, so imas to the University, it is confidently hoped, will be confirmed by the Legistil the 21st, when we took a trip up Big Crow Creek, and returned the University, will soon be forwarded by lature. Memorials concerning these the Executive Committee.

These and other measures were adopted with great unanimi y. Everything betokens the growing promise of our University. The adoption of the open or elective system carries with it all other possibilities of progress, and the action of the B ard, supported as it is by a progressive increased energy and efficiency in a l departments of the University. Let us hope the Legislature will second these efforts by wise and liberal legis

nds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natura strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes ried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constitution, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. Merrell's Hepatine, the great vegetable discourse for turnidity, causes the Liver to throw discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an ex-cess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. deadache is generally cured in twenty minutes and no disease that arises from the Liver can exist if a fair trial is given.

Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE. Sanford, chamberiain & Aibers, Wholesale Agents, Knoxville, Tenn. THE NEW YORK SUN FOR 1879.

THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: To present all the news in a readable shape, and to tell the truth though the heavens fall.

THE SUN has been, is and will continue to be

independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest news-paper need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American jeurnal. THE SUN is the newspaper of the people. It not for the rich man against the poor man, or for the poor man against the rich man, but it seeks to do caual justice to all interests in the community. It is not the organ of any person, class, sect or party. There need be no mystery a out its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat as against the dishonest Re-publican, and for the honest Republican against the dishonest Democrat. It does not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men or measure; are in agree-ment with the Constitution and with the princi ples upon which this republic was founded for the people. Whenever the Constitution and constitutional principles are violated—as in the outrageous compinery of 1876, by which a man not elected was placed in the President's office, where he still remains—it speaks cut for the righ . That is The : un's idea of independence. In this respect there will be no chappe in its programme for 1879. The cun has fairly earned the hearty halred

to rascale, fraude, and bumbugs of all sorts and sizes. It nopes to deserve that hatred not less in the year 1s79 than in 18.8, 1877, or any year gone by. The Sun is printed for the men and women of to-day, whose concern is chiefly with the affairs of to day. It has both the disposition and the ability to afford its readers the promptest, fullest and most accurate latelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be liberally em-

The present disjointed condition of parties in this country, and the u certainty of the future lend an extraordinary significance to the events of the coming year. To present with accuracy and clearness the exact situation in each of its varying phases, and expound, according to its well known me hods, the principles that should guide us through the labyrinth, will be an important part of The Sun's work for 1879.
We have the means of making The Sun, as a political, a literary, and a general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely. Our rates of subscription remain unchanged. For the Datty Sus, a four-page heet of twenty-eight columns, the price by mail, postpaid, is 55 cents a month, or \$6 50 a year; or including the Sunday paper, an eight-page sheet of fif y-six columns, the price is 65 cents a month, or \$7.70 a year, postage paid.
The Sunday edition of The Sun is also furnished separately at \$1.20 a year, postage paid.
The SUNDAY SUN, in addition to the current

news, presents a most entertaining and in truc-tive body of literary and miscellaucous matter, n bulk twice as great and in value not inferior to that of the best monthly magazines of the day, at one tenth of their cost. The WEEKLY SUN is especially adapted for those who do not take a New York daily paper. in every village! The news of the week is fully pre-ented, its market reports are furnished to the latest moment, and its agricultural department, edited with great care and ability, it unsurpassed. The WREKLY SUN is probably read to-day by more farmers than any other paper published. A choice story, with other carefully prepared mis-cellany, appears in each issue. The Weekly protects its readers by barring its advertising

columns against frauds and humbugs, and furnishes more good matter for less money than can be obtained from any other source.

The price of the Werkly Str., eight pages, fifty-six columns, is \$1 a year, postave paid. For clubs of ten sending \$10 we will send an extra copy free. Address
